## OBJECTIVE

Passionate and well-trained DevOps enthusiast with hands-on Knowledge in AWS, GCP, and key DevOps tools including Git, GitHub, Jenkins, Docker, and Kubernetes. Proficient in Python scripting for automation tasks and CI/CD pipeline optimization. Strong understanding of software configuration management and cloud infrastructure provisioning. Eager to apply DevOps methodologies and Python-based automation to streamline deployments, manage multi-environment setups (DEV, QA, PROD), and contribute to a scalable and secure cloud ecosystem.

## SUMMARY

- Trained in **AWS, GCP** and key **DevOps tools** including **Git, GitHub, Jenkins, Docker, and Kubernetes**
- Strong interest in **Software Configuration Management, CI/CD, and automating deployments across environments**
- Proficient in **Version Control Systems (Git)**: experienced in managing repositories, creating tags, branches, and performing merges
- Hands-on experience in **Jenkins** for automating **CI/CD pipelines**, administering plugins, and configuring distributed build setups
- Solid understanding of **Docker** containerization; familiar with Kubernetes orchestration concepts and keen to expand skills
- Experience working in **UNIX/Linux environments** with basic knowledge of **Shell scripting**
- Familiar with **Elastic Load Balancing (ELB)** setup for scalable network architecture in AWS
- Created and managed **EC2 snapshots** and instance backups for disaster recovery and cloning
- Managed **IAM roles and permissions** for secure access control across AWS services
- Ability to manage **multi-environment setups** (DEV, QA, PROD) and support various release strategies
- Strong team player with excellent communication skills and a proactive attitude toward continuous learning and professional growth

## EDUCATION

<b>Bachelors of Computer Administration</b> Maharshi Dayanand University   Rohtak, Haryana	<b>Aug '22 - Jul '25</b>
<b>Higher Secondary Certificate</b> Kurukshetra Senior Secondary School   Faridabad, Haryana	<b>Jun '22</b>
<b>Secondary School Certificate</b> Kurukshetra Senior Secondary School   Faridabad, Haryana	<b>Nov '20</b>

## PROJECTS

### 1. CI/CD Pipeline for Java Spring Boot Application

- The Built a complete CI/CD pipeline using GitHub, Jenkins, Maven
- application and deployed it to a remote server for testing and production

### 2. Infrastructure Provisioning with Terraform on AWS

- Provisioned and managed over 40 AWS resources (EC2, VPC, ELB, Auto Scaling, RDS, Subnets, etc.)
- Applied Infrastructure as Code (IaC) using Terraform for consistency and speed
